

PALLET COOLER

The method of selling beverages is continually evolving to satisfy the end customer. efficold responds to this demand with products fully adapted to the needs of our customers.

The **pallet cooler** is characterized by being able to cool a whole pallet of beverages at the same time, offering great customization possibilities and a very low consumption.

Características

- Cooling system made of metal sheet that provide great robustness, and outer shell in plastic polycarbonate to reduce weight.
- Uniform distribution of the cold inside thanks to the excellent design of the cooling system, which send a homogeneous amount of air throughout the enclosure.
- External temperature display.
- Temperature control by digital thermostat with automatic defrost.
- Automatic evaporation of defrosting water.
- Unitary palletizing.

Opciones

- Exterior customizable.

Datos técnicos

External dimensions (mm)	1253 x 1214 x 940
Net weight (kg)	80
Capacity 33 cl cans / PET 500ml (pcs)	European pallet
24h energy consumption (kW/h)	15,99
Canopy serigraphy dimensions (mm)	1220 x 264
Transport 40' container / 13m truck	62 / 90
Climatic class	CC1 (25°C/60%HR)
Temperature range (°C)	+5 / +11
Refrigerant	R-290
Voltage / frequency	230v / 50Hz
Front serigraphy dimensions (mm)	1215 x 755
Lateral serigraphy dimensions (mm)	860 x 755
