

Slim Bullet TE

Our coolers are a reference in the international market for their quality, reliability and for the collaboration of the most prestigious beverage brands in the world for more than 30 years.

The Slim Bullet FE uses a Peltier cell to efficiently adjust the consumption temperature of the beverages. In addition, it is highly customisable and compact in design.

Features

- **SMART DESIGN:** Cool what you need at any given moment, **optimising resources** to cool the product to be sold.
- **Compact design** that fits perfectly anywhere within the point of sale.
- Methacrylate window for access to the beverage for **impulse sales**.
- Ergonomic rear recharge system with **FIFO consumption system**.
- The cooling equipment is **maintenance-free**, making it a plug & play system.
- Easy to change the **branding** thanks to the side panels.
- More than 100,000 hours of service life.
- Product made from **100% sustainable materials**.
- **Minimal carbon footprint**.
- Palletised 24 units per pallet.

Options

- Exterior customizable.
