

Working table

efficold work tables offer large work surfaces that are characterized by durability and robustness that make them the strongest on the market, designed to integrate perfectly with the rest of stainless steel furniture.

The flexibility in sizes and models allows you to get the most out of the kitchen

Features

- Tables with 1.2 mm thick countertop built with envelope and 18/10 stainless steel structure fully welded, in satin finish.
- Worktop of 50 mm soundless with omega reinforcement throughout the length that prevents vibrations, with rounded edges.
- Legs provided with adjustable height feet.
- Lower shelf welded to the structure with omega reinforcement throughout the length.
- As an option / accessory, drawers can be mounted very easily.
- Tables disassembled. In just 180mm in height you can stab a table. With this you get a price, transport and storage cost savings.
- Its mountable structure system allows assembly with great ease and speed.
- Once assembled, a solid and robust structure is obtained.

Options

- Possibility to incorporate an additional shelf.
