

WF-2T

Our high capacity freshwater dispensers are the perfect combination of design and functionality. They can offer up to 200 liters of pure and fresh water every hour.

Highlight its anti-corrosion system with a 10-year warranty and its environmentally friendly design.

Features

- Construction entirely in satin stainless steel with front door for easy technical access.
- The sheet metal parts in direct contact with water are made of AISI-304 stainless steel.
- Equipped with two cold water outlets with sanitary protection.
- Designed to allow simple and quick maintenance.
- Ecological injected polyurethane insulation free of CFCs density, 40kg / m³.
- Four feet adjustable in height.
- Temperature control by mechanical thermostat.
- Unitary palletizing.

Options

- Active carbon filter for the reduction of chlorine and other bad flavors and odors that may be present in the water. NSF International Certified.

Technical Data

External dimensions (mm)	510 x 420 x 1460
Net weight (kg)	57
24h energy consumption (kW/h)	3,2
Absorption power (W)	700
Climatic class	4 (30°C / 55%HR)

* (width x depth x height)

Water outlet temperature (° C)	+6 / +12
Refrigerant	R-290
Voltage / frequency	230v / 50Hz
Connection kit	1/2"
Transport 40' container / 13m truck	91 / 106
