ICEL-66

Our ICEL **refrigerated display cooler** is ideal for positioning in **areas with heavy traffic of people** where you want to generate impulse purchases.

A compact cooler with a **great robustness** and a totally guaranteed quality. It is entirely made of steel and allows customization in colours, size, capacity and materials.

It is the **design** and culture of **merchandising in perfect harmony**. We get the best internal product visibility thanks to the great internal LED illumination.

It has **three fully customizable versions** that allow the client to choose the most appropriate option for their project.

Reliability | Hydrocarbons | Energy Saving | Customization

Features

- **Compact design, maximum capacity and great interior visibility.**
  - Interior horizontal LED light to maximise product visibility.
  - Interior and exterior made of sheet steel for great robustness.
  - Double glazed door mounted on aluminium profile and handle embedded in the front.
  - Ecological CFC-free injected polyurethane insulation, density 40kg/m³.
  - Temperature control by digital thermostat with automatic defrosting.
  - Four height adjustable feet.
  - Uniform distribution of cold inside thanks to the excellent design of the ventilated cooling system and evaporator.
  - Automatic evaporation of defrost water.
  - Unitary palletising.

Options

- Customisable exterior.
- Printed and/or illuminated logo on the glass.
- Energy Management Device (EMD).
- Door lock.
- Door with soft-closing system to close the door slowly and safely.
- Internal separators (see photo).

Technical Data

External dimensions (mm)	603 x 705 x 665
Net weight (kg)	57
Internal net volume (Lt)	56
Capacity 33 cl cans (pcs)	84
24h energy consumption (kW/h)	2,04
Climatic class	CC1 (25°C/60%HR)

Refrigeration power (kW)	0,253
Temperature range (°C)	+3 / +8
Refrigerant	R-600a
Voltage (v)	230
Frequency (Hz)	50Hz
Transport 40' container / 13m truck	90 / 114
